

METALOR®

Headquartered in Neuchâtel (Switzerland), the Metalor Group (www.metalor.com) is a key global player in the field of precious metals and advanced materials. Organized in three divisions (Refining, Advanced Coatings and Electrotechnics) it employs 1650 people and is represented through local affiliates in 17 countries on 4 continents. Metalor is pursuing its strategy of development and is set to expand its international presence organically and through acquisitions. To support the management in achieving such objectives, we are looking for a

Corporate Insurance & Risk Manager

Your mission: Reporting to the Group's Legal Manager, you are part of the Group Corporate Services team based in Neuchâtel/Switzerland. Your key responsibility is the management and continuous improvement of the global insurance program and portfolio. You identify and optimise the coverage of risk according to a Group insurance concept that you will have the project to develop. You manage the Group insurance budget, coverage and premiums with brokers and insurers. You coordinate, analyse and report to the board of directors on the Group's formal risk assessment program and participate in the Group's anti-money laundering and compliance activities. You run the training of the business units on insurance, risk and compliance matters.

Yourself: Holder of a university degree or equivalent, preferably with further insurance qualifications, you have at least 3 to 5 years experience at a similar post in an

industrial and international environment. You complement your technical skills with excellent communication aptitude and astute negotiation ability. Amongst your major strengths are results orientation, rigour and business acumen. You speak English and French fluently and write a perfect English. Knowledge of German would be a plus.

We offer you: We offer you the opportunity to join a well established and financially healthy leading group. The chance to play a key role during this new and exciting phase of its strategic development with a broad and diverse scope of responsibilities. Great market perspectives and international business growth opportunities. An attractive remuneration package, reflecting the importance of this position, with competitive social benefits.
